

I am writing regarding the proposed expansion of the Low Power FM broadcast service. This expansion could force my station, K-LOVE, off the air, which would be an extreme loss in my local community. K-LOVE not only provides family-focused music, but they also provide an avenue to promote local community activities at no charge. The service provided by K-LOVE is in the public interest because the declining morality on the airwaves offers fewer and fewer choices for me and my family to listen to decent news and music. Plus the benefit of this being a listener-supported station saves young ears from hearing crude advertising. And to repeat, they offer a cost-free avenue to promote community events that are offered in the local public interest. Please do not give LPFM priority over FM translator service like K-LOVE.
